

WHERE THEY WENT.

Some Answers from Participants in the April Distribution.

A Few of the Many Receipts for Premiums Given Away on the 5th Instant.

Up to this date nearly three-fourths of the premiums given away to subscribers on the 5th inst. have been forwarded to the parties to whom they were awarded. A few of the many receipts on hand are published to show the character of the answers that come back from some of those who participated as ticket holders in THE GAZETTE's second semi-annual distribution.

HEIDENHEIMER, Tex., April 28, 1887.—Fort Worth GAZETTE:—Gents: I have received the W. A. Huffman buggy drawn by ticket No. 3240 in your April distribution of premiums, and am well pleased with it. The buggy is a much finer one than I expected. The W. A. Huffman implement Co. have fine workman who know how to get up a stylish and durable vehicle.

The Fort Worth GAZETTE is the best paper in Texas, giving the most news and the best market reports. It is the leading paper of the state and the most popular.

Yours very truly,
A. BAGGETT.

Holland Tex., April 18, 1887.—Democrat Publishing Company—Gentlemen: The Sterling organ awarded to me on ticket No. 3596 has been received and I write to express my thorough satisfaction with the instrument and my appreciation of your promptness in its shipment. I would have acknowledged receipt some days sooner, but waited until I could have the organ examined and tested by some one more capable than myself of deciding upon its merits.

With best wishes for the continued prosperity and popularity of THE GAZETTE, I am yours, very truly,
JAMES M. MARKHAM.

Atlanta, Tex., April 17, 1887.—Dear GAZETTE: Please accept my thanks for the handsome morocco bound copy of Dore's Paradise Lost, received this morning. The illustrations of Milton's masterpiece by the wonderful imaginative Dore, renders it doubly interesting.

May the success THE GAZETTE merits always attend the efforts of its management. Yours truly,

FORT WORTH MARKETS—DAILY REVIEW.

OFFICE OF THE GAZETTE, FORT WORTH, TEX., May 4, 1887.

Trade was good to-day in all lines.

Several small lots of wool were received to-day and brought 18 cents, but the market is generally quiet.

THE STATE OF TRADE.

Special telegrams to Bradstreet's from leading trade centers indicate a moderate improvement in the movement of general merchandise. At Philadelphia, Cincinnati, Louisville, Chicago, St. Louis, New Orleans and San Francisco there have been gains over a week ago.

The interior demand and the call for staple goods at New Orleans, St. Louis and Chicago is marked. At San Francisco prices tend upward on liberal transactions. Sugar has advanced 1/4c. per pound since the relief experience by transcontinental lines from section 4 of the inter-state law, and 4000 barrels have been shipped to St. Paul via the Canadian Pacific, with more to follow.

Other California overland shippers have begun to send goods east as well. Trade at Louisville is stimulated by the active measures taken to increase that city's industrial and commercial importance. The distribution of merchandise from Boston has been disturbed because of inability of railways to announce freight rates, so that cost of delivery of goods may be determined. Interviews with over 1,500 leading shippers at thirty-four cities, wired to Bradstreet's, indicate that a like delay in framing as well as in making known rates has had much to do with the late disturbance to trade. It is also learned that railways have been and are making new, and as stated, more equitable rates than were first announced, which goes to relieve the situation; and that there is a sentiment among a large number of the shippers in favor of the inter-state law being fully tested.

The industrial situation is no more promising than last week. The great Worcester county (Mass.) boot and shoe lockout is practically over, but stove molters, building trades and other workers aggregate over 31,000 in April to the 25th inst. Over 90,000 coal miners are to demand an advance, as will 80,000 iron and steel workers, with strikes as alternatives. The total bank clearings at thirty-seven cities for six days ended yesterday, as exclusively wired to Bradstreet's, amounted to \$995,788,863, against \$1,058,588,118 last week, and as compared with \$781,604,965 in the fourth week in April, 1886. The decline for the week is \$62,775,000, or 6 per cent., but the week's total is 28 per cent. in excess of the record a year ago. The check to trade caused by the new rail rates of late is now reflected in part in the bank clearings. New York's total declined \$25,000,000, Boston's \$7,000,000, Philadelphia's \$14,000,000, and Chicago's \$8,000,000, which, which does not result from current business alone. Interior money markets are not, as a rule, as easy as last week, owing to increased local demands in many lines. The New York stock market has been dull and irregular with lower tendencies at times, largely due to the disturbed condition of foreign markets and uncertainty regarding the effects of the new railway rates. Money is easier and foreign exchange strong and rising.

It is pointed out by Bradstreet's that wheat and flour exports, July 1 last to date, cover the exportable surplus of last crop, and that present rate of exports, with home consumption, would, if continued to July 1 next, wipe out the reserves carried over last summer, if they were correctly estimated. The "drop" in wheat is due chiefly to the cliques selling May and buying the deferred deliveries. It is conceded that arrangements with the carriers have been perfected to hold the cereal through May and possibly June, so no sensational developments are looked for next week.

There is little new in iron or steel. Reported cut prices on bar and rails are isolated cases and specially influenced. As a rule prices are very firm, with makers

busy. More iron is going forward at the west. Copper has dropped 1/4c. to 10c. per pound on sales of about 25,000,000 pounds abroad, several months' supplies. Calumet and Hecla dropped 5 points to 210. The outlook is for another struggle between the Lake and Montana copper kings for supremacy. Coffee has been feverish, irregular and lower on free realizing sales after the heavy advance, but closing for spot Rio 1/4c. over last week. The advance in petroleum certificates of about 6c. per barrel appeared as a result of the defeat of an anti-standard bill in the Pennsylvania Legislature. The want of connection was so apparent that few if any were deceived, and the advance was only partially sustained.

Boots and shoes at Boston are unusually active, but prices are no higher. Wool continues very quiet. Holders are firm and look for good prices. Manufacturers are buying sparingly. Some machinery is idle, more promises to become so, and some is on a short time. Brown and bleached shirtings have been shaded a little; other cottons are firm and in fair request.—Bradstreet's.
